L/S: Load/Speed EL: Extra Load

- 5 RIB SYMMETRIC TREAD DESIGN**
provides increased high speed stability and the freedom of tire rotation, enhancing tread life and wear life.
- WIDE SHOULDER BLOCKS**
increase tread stiffness allowing for maximized performance and even wear.
- DOUBLE TAPERED CUT TREAD BLOCKS**
create a state-of-the-art look while maximizing noise control and water evacuation.
- WIDE AND NARROW SHOULDER LUG GROOVES**
designed to optimize noise reduction.
- SOLID CENTER RIB**
for improved lateral handling and highway stability.
- STEEL BELTS**
offer greater tread rigidity, superior grip and high speed stability.
- JOINT-LESS NYLON CAP PLY**
increases durability at high speeds and promotes long lasting even wear.

The **ZIEX S/TZ05** features the latest in tread compound and construction technology designed specifically for SUV and 1/2 ton sport truck applications. With an advanced M+S all-season non-directional tread design, the S/TZ05 enjoys the freedom of rotation in all directions, optimizing tread life. With double tapered cut tread blocks and staggered shoulder lug grooves, the S/TZ05 is a smooth, quiet and dynamic tire. Available from 20-inch to 26-inch applications, this tire covers many of today's popular SUV and LT wheel fitments. Whether you're cruising through the city or driving on the open highway, the S/TZ05 provides unparalleled performance and comfort.
